Do your church's or school's copies of this anthem look like they might be original first edition copies, a little worn and faded, filled with pencil marks, erasures, and torn pages? Then go ahead and make all the new, clean copies of this music that you want. Better yet, go to our website and download a nice, new, fresh original at no cost. And while you're there, look at the other music for choir, keyboard, children, youth, handbells, and congregational singing that's there. Go to <http://www.umcworship.org> and click on Music>Music Downloads. All of the music on our website is accessible there.
